

REMARKS

Applicant appreciates the Examiner's allowance of Claims 1, 4, 9, 14, 20, 23, 28, 30, 33, 34, 36 and 39.

In addition, Applicant appreciates the Examiner's entering of Amendment F filed on June 19, 2008 (see Advisory Action of July 10, 2008). It is believed that Amendment F overcomes the Examiner's objection to the drawings under 37 CFR 1.83(a) in the Final Rejection. If this is not the case, it is respectfully requested that the Examiner contact the undersigned.

Amendment To Claims

Applicant is filing this amendment merely to correct two informalities in the claims and to place the claims in a better condition for appeal or allowance.

In particular, in Claim 15, Applicant is deleting the word "second" before "transparent film" in the second to last line in the claim, as there is no previous recital of a second transparent film or a recital of a first transparent film in the claim. Rather, the claim recites "a transparent film." Therefore, this amendment is consistent with the language used in the claim and corrects an informality in the claim. Hence, no new matter is being added.

With regard to Claim 24, Applicant believes that the claim language "filling a substance with at least a gap between the transparent film and the second substrate" is grammatically incorrect and awkward. Therefore, Applicant is amending the claim to recite "filling at least a gap between the transparent film and the second substrate with a substance." It is believed that this amended language is grammatically correct and easier

to read. Hence, this amendment merely corrects an informality in the claim, and no new matter is being added.

Accordingly, it is respectfully requested that these amendments be entered and allowed.

Conditional Extension of Time

Applicant does not know if an extension of time is necessary to file this amendment. If such an extension of time is needed, please consider this a petition for such an extension of time, and please charge our deposit account 50/1039 for any fee due for such an extension of time.

Conclusion

As this amendment merely corrects minor informalities in the claims and places the claims in a better condition for appeal or allowance, it is respectfully requested that this amendment be entered at this time.

If any fee should be due for this amendment, please charge our deposit account 50/1039.

Favorable consideration is earnestly solicited.
